

Follow-up group, meetings and reports

1. Follow-up point: acceptance of the Doctoral Training Plan

Time: At the end of the first year of training.

- 1.1. The doctoral researcher submits *the Doctoral Training Plan* (accepted by the supervisors) and other needed materials to the follow-up group members before the meeting. The Doctoral Training Plan consists of *a research plan* that is made according to the practices in the field, *a Study Plan* (PSP). PSP is formulated in Weboodi and sent to UniOGS coordinator for review. Instructions for writing the Doctoral Training Plan can be found [here](#).
- 1.2. During the meeting, the doctoral researcher presents his/her doctoral training plan and a summary of the goals for the next year. The follow-up group gives feedback on the plans. This meeting is important for training in how to write a research plan, which is an important skill for research-oriented careers. To aid the development of this skill, the follow-up group plays a role of an expert panel responsible for the evaluation of research funding applications. The aim is to train the doctoral researcher to become skilled in applying for funding.
- 1.3. **The chair of the follow-up group submits the form below, together with the Doctoral Training Plan (accepted by the follow-up group), in a PDF-format to the doctoral researcher, his/her supervisors and UniOGS (uniogs@oulu.fi). If the follow-up group requires changes to be made to the Doctoral Training Plan, these must be made before it is submitted.** (The subject bar of the email: DTC, FuG 1st meeting, Doctoral researcher name)
- 1.4. The Doctoral Training Plan is formally accepted in a Doctoral Training Committee meeting after which the doctoral researcher will receive 3 ECTS in WebOodi: 920012J *Doctoral Training Plan*.

Väitöstutkijan nimi / <i>Name of doctoral researcher</i> Kseniia Golubenko	Opiskelijanumero / <i>Student ID number</i> 2668165	Kokouksen pvm / <i>Date of meeting</i> 29 Jan 2021
Tohtorikoulutustoimikunta / <i>Doctoral Training Committee</i> Technology and Natural Sciences	Pääaine / <i>Major subject</i> Physics and astronomy	Pääohjaaja / <i>Principal Supervisor</i> Ilya Usoskin
Läsnäolleet seurantaryhmän jäsenet / <i>Members of the follow-up group present in the meeting</i> Jyrki Manninen, Jurgen Schmidt, Ilkka Virtanen		
Seurantaryhmän kommentit tutkimussuunnitelmaan (tausta, tavoitteet, menetelmät, toteutus, eettiset kysymykset) / <i>Comments of the follow-up group on the research plan (background, objectives, methods, implementation, ethics)</i> The research plan is clearly written, logical and realistic. The scientific background, objectives, research material and methods are described. There are no ethical issues. Timetable is realistic.		
Seurantaryhmän kommentit opintosuunnitelmaan / <i>Comments of the follow-up group on the study plan</i> The study plan includes all required studies and is progressing well.		
Seurantaryhmän kommentit urasuunnitelmaan / <i>Comments of the follow-up group on the career plan</i> The career plan is shown in the end of Doctoral Training Plan. It seems to be reasonable.		
Seurantaryhmän muut kommentit (ohjausjärjestelyt, liikkuvuus, julkaisusuunnitelma) / <i>Other comments of the follow-up group (supervision, mobility, publication plans)</i> There are no issues with supervision. The publication plan contains 4 articles during the PhD work (1 published, 1 almost ready). Participation in several scientific conferences is planned: GEOCOSMOS-2021, the EGU-2021 and the VCAIS-2022, CHAMOS. Short- and mid-term research visits are planned: Nov 2021: PMOD/WRC Davos, Switzerland. Jun 2022: SPBU Saint Petersburg, Russia.		
Seurantaryhmän puolto tohtorikoulutussuunnitelman hyväksymiselle (sovitut korjaukset on tehty) / <i>Follow-up group recommendation on the doctoral training plan acceptance (after mandatory revisions)</i> The follow up group recommends that the doctoral training plan is accepted.
